

ENVIRONMENTAL POLICY

Agrivert Limited is committed to sound environmental practice and will plan and update its practices in response to advances in technology and new understanding in environmental science. Agrivert will constantly review its environmental objectives and targets. Agrivert is committed to becoming carbon neutral whilst processing, treating and recycling organic waste.

AGRIVERT'S ENVIRONMENTAL PRINCIPLES:

To minimise the production of non-organic waste where possible and to ensure any disposal of waste produced is carried out with due care for the environment.

To be committed in the prevention of pollution in all activities.

To ensure that the transport of raw materials and of products is carried out in the most environmentally responsible way. Agrivert's vehicles will be made as fuel-efficient as possible and their routings will try and reduce environmental impact on local residents.

To try to minimise the use of new products where other recycled materials are a suitable substitute and to comply with Agrivert's Environmental Purchasing Guidelines.

Where waste materials or products can be recycled Agrivert will make every effort to ensure that they are recycled in an environmentally responsible way in order to conserve resources.

Agrivert will try and minimise the use of energy sources within the organisation, including the use of renewable energy when conducting site operations.

Agrivert is committed to continual improvement on environmental issues where economically feasible.

Agrivert will review annually and keep publicly available this Company Environmental Policy.

Agrivert will ensure that operations comply with current legislation and other relevant requirements.

Agrivert will be a responsible employer and neighbour.

Agrivert will ensure that all employees carry out their duties in line with the above statement and, through training, are aware of their obligations. ISO 14001: 2004.

QUALITY POLICY

The Management of Agrivert are dedicated to providing all their customers with products and services which conform in all respects to their expectations. Agrivert operates a integrated Business Management System (BMS) which meets the requirements of BS:EN:ISO 9001:2008.

This Policy, together with all other components of the BMS, is mandatory and will be observed by all who act, in whatever capacity, on behalf of Agrivert. No deviation from prescribed procedures will be allowed without the express permission of the Chief Executive or his appointed representative.

The management accept responsibility for communicating to all employees Agrivert's commitment to quality and for ensuring that the Quality Policy is understood, implemented and maintained at all levels. All members of staff are encouraged and motivated to be conscious of the contribution that they can make towards the achievement of Quality Objectives.

Given the progressive nature of Quality Assurance, the management undertakes to adopt any relevant improvements and developments which will serve to keep the Company at the forefront in all quality matters.

Everybody in Agrivert is recognised as a valued contributor to the continued success of the Company, not least through achievement of the highest quality standards.

Alexander Maddan
Chief Executive
